

ROOTED RHYTHM

A CYCLE GUIDE

Menstrual

DAYS 1–7

BODY

Estrogen, progesterone, and testosterone at their lowest.

FEEL

Steadier than expected. Energy lifts after day two.

FOOD

Protein, healthy fats, cruciferous veg. Olive oil, flax, avocado, seeds, walnuts.

MOVE

Rest and recover. Walking, stretching. Save HIIT for later.

Follicular

DAYS 8–11

BODY

Estrogen climbs steadily toward ovulation.

FEEL

Mood and energy lift. Stress feels more manageable.

FOOD

Protein, fiber, whole food carbs. Seeds, nuts, legumes, spinach, berries.

MOVE

Push harder here. Strength training, higher intensity work.

Ovulatory

DAYS 12–16

BODY

Estrogen peaks, testosterone rises, progesterone begins climbing.

FEEL

Confidence and drive peak. Good for hard conversations, big asks.

FOOD

More whole food carbs. Support liver and gut: cruciferous veg, flax, fermented foods, salmon.

MOVE

Strength and intensity still strong. Watch form, joints are looser.

Luteal

DAY 17–NEXT PERIOD

BODY

Progesterone rises, then falls with estrogen near the end.

FEEL

Calm and inward at first, then fatigue, irritability, cravings.

FOOD

Don't restrict. Complex carbs: potatoes, squash, lentils, beans, fruit.

MOVE

Shift to restorative. Walks, lower intensity strength, mobility work.
